

17th-19th April 2023, Krakow, Poland

Seventh Annual Course of Academy of Immunohistochemistry

Diagnostic Immunohistochemistry and Molecular Pathology

Kraków, 14th November, 2022

Dear Colleague Pathologist,

We are glad to announce that we proceed with organization of the subsequent (the seventh) edition of the teaching course Academy of Immunohistochemistry.

Organized by

- Department of Pathomorphology, Jagiellonian University,
- Department of Tumor Pathology, M. Skłodowska-Curie National Research Institute of Oncology

Supported by

- Nordic Immunohistochemical Quality Control (NordiQC) organization,
- Polish Society of Pathologists
- Norwegian Society of Pathology
- European Society of Pathology.

Venue: Jagiellonian University, Auditorium Maximum

The course is mainly designated for practicing pathologists and pathologists-in-training, especially those who are interested in diagnostic procedures using immunohistochemistry. Our course may be also useful for biologists and biomedical scientists.

This 3-days course will cover immunohistochemical issues in:

- breast
- gastrointestinal tract
- female reproductive system
- soft tissue
- central nervous system
- hematolymphoid tumors

Separate lectures will be devoted for technical aspects and rational costs of IHC procedures.

Just like last years, we are going to expand the program of the course with additional live microscopy session (so-called consultation corner), this time it will be dedicated to the gynaecological and soft tissue pathology conducted by distinguished experts: Anais Malpica, Simone Stolnicu and Markku Miettinen. Since 2018 we also consequently expand the range of topics concerning molecular tests relevant to diagnostic procedures and targeted therapies. One day of the course will be almost entirely dedicated for introduction to molecular testing of cancer and practical applications of molecular techniques for tumor differential diagnostics. The application to the EACCME® is submitted for CME accreditation.

Course Faculty: Andrew Bellizzi (USA), Maria Debiec-Rychter (Belgium), Wiesława Grajkowska (Poland), Jan Klos (Norway), Konstanty Korski (Germany), Artur Kowalik (Poland), Jerzy Lasota (USA), Anais Malpica (USA), Andrzej Marszałek (Poland), Markku Miettinen (USA), Andrzej Mróz (Poland), Søren Nielsen (Denmark), Anna Porwit (Sweden), Janusz Ryś (Poland), Hans-Ulrich Schildhaus (Germany), Regine Schneider-Stock (Germany), Katarzyna Seliga (Poland), Simone Stolnicu (Romania), Tibor Tot (Sweden), Joanna Trubicka (Poland), Andrzej Tysarowski (Poland)

The organizing office is the Jagiellonian University's Centre for Communications and Marketing – Conferences, Krakow.

You are welcome to visit <http://ihc-academy.patomorfologia-cmuj.pl/> for more detailed program, international speakers and registration. Please, notice that the number of participants is limited to 120 only. If you are of any reason not able to participate this time, please kindly forward this information to your colleagues.

In case of any inquires do not hesitate to contact our conference office at konferencje@uj.edu.pl

On behalf of the Organizing Committee

Janusz Ryś MD PhD
